INGREDIENTS OF  
NATURAL ORIGIN

# FACIAL PROTECTION SPRAY

Negative oxygenation of facial skin cells and tissue occurs due to changes as a result of ageing and digital pollution (blue light). The skin is poorly supplied with oxygen. Metabolism decreases in the deepest layers of the skin. The skin colour becomes dull, and the skin tone is uneven.

The spray for facial skin protection with OXYGESKIN® patented complex strengthens the skin's protective barrier, smoothes the skin's structure, as well as improves skin quality and restores radiance.

## How does blue light affect the skin?

The effects of blue light on the skin are associated with increased formation of free radicals, DNA damage in skin cells, and deterioration of collagen and elastin fibers. This may cause:

- premature aging of the skin;
- the appearance of wrinkles;
- pigmentation;
- loss of elasticity.

## CARELIKA SPRAY FOR SKIN PROTECTION ENRICHED WITH OXYGEN AND ANTIOXIDANTS

50ml | CPBLPS050

In order to restore the strength and elasticity of skin cells, make the skin healthy and regenerate it, it is necessary to provide the cells with constant nutrition, enriching them with oxygen, which improves the formation of biologically active substances, promotes metabolism and regeneration of skin cells.

OXYGESKIN®

ENRICHES THE SKIN WITH OXYGEN

Its richness in nutritive elements allows the skin to face external aggressions and to provide softness and comfort.

### SHEA BUTTER

Shea butter is obtained by cold pressing. Rich in triglycerides, it helps to fight against skin dryness. The Kariten is a source of pro-vitamins substances (Vit A, E and F) which revitalize the skin and help it to keep its brightness.

## CARELIKA Pistachio Body Butter

250ml | CPPBB180

Pistachio butter retains a large fraction of the unsaturated free fatty acids found in the oil and therefore provides noticeable advantages to the skin: easily spreads on the skin and penetrates quickly whilst imparting a mat effect. It moisturizes the skin and has nourishing and softening effects.
