

CARELIKA FILLER ELEGANCE

DERMAL DENSITY & SKIN REJUVENATION SYSTEM

CARELIKA

PROFESSIONAL SKIN CARE

WRINKLE CORRECTION **SKIN TEXTURE REFINEMENT** **DERMAL MATRIX SUPPORT**

CLINICAL POSITIONING

The CARELIKA Filler Elegance Professional Line is a high-performance aesthetic skincare system developed to improve skin density, elasticity and hydration. The formulas combine four molecular weights of hyaluronic acid, biomimetic peptides and marine structural proteins to visibly smooth wrinkles, enhance firmness and support dermal structure.

Designed for professional aesthetic treatments, the system delivers immediate lifting effects with progressive skin rejuvenation.

PROFESSIONAL BENEFITS

- Visible wrinkle smoothing
- Improved skin density and firmness
- Deep multi-layer hydration
- Enhanced elasticity and resilience
- Immediate lifting and radiance effect

PROFESSIONAL APPLICATION

Designed for clients experiencing early to moderate signs of aging, including fine lines, dehydration and loss of firmness. Suitable for normal, dry, dehydrated and mature skin types, typically aged 30–35+, seeking effective non-invasive rejuvenation solutions.

PROFESSIONAL ADVANTAGES:

- Ideal for course-based rejuvenation treatments
- Compatible with device-based procedures
- Suitable for post-peeling recovery protocols
- Retail continuation to maintain professional results

MULTI-MOLECULAR HYALURONIC COMPLEX	DERMAL PEPTIDE MATRIX	SKIN RENEWAL ACTIVATORS	DERMAL VOLUME SUPPORT	MARINE STRUCTURAL PROTEINS	INSTANT LIFTING COMPLEX
Combination of four molecular weights of hyaluronic acid delivering multi-level hydration, skin plumping and visible wrinkle reduction.	Matrigenix 14.G + Sepilift™ DPHP support extracellular matrix components and help improve skin density, firmness and elasticity.	EarlyBoost™ + Aquaxyl™ enhance skin renewal processes while optimizing moisture circulation and strengthening the skin barrier.	Commipheroline® helps restore the appearance of skin volume and improve facial contour smoothness.	Marine Collagen + Marine Elastin support skin firmness, elasticity and dermal resilience.	Instensyl® provides immediate tightening and visible smoothing effects.
