

# CARELIKA SKIN CHAT DERMA SPIQ PEEL (7% Spicula)

**CARELIKA**  
PROFESSIONAL SKIN CARE

**PROFESSIONAL USE ONLY** **EXFOLIATION** **SKIN RENEWAL** **MADE IN FRANCE**

CARELIKA presents the new SKIN CHAT Derma SPIQ Peel (7% Spicula) - an innovative physiological skin-renewal system created for professional treatments.

The formula unites micro-spicules with succinic acid to stimulate microcirculation, accelerate cellular renewal, and enhance the penetration of active ingredients. The renewal is controlled and gentle, with high tolerance and no aggressive exfoliation.

## HOW TO USE:

Apply by zones using light pressing movements to ensure even distribution of spicules.

## RECOMMENDED FOR:

Acne-prone, oily, dull skin;  
photoaging;  
enlarged pores;  
post-acne concerns;  
revitalizing protocols.

## CAN BE COMBINED WITH:

The Derma SPIQ Peel works perfectly in combined protocols. It can be used together with CARELIKA meso-cocktails, boosters, and Carboxy Therapy, as well as paired with CARELIKA masks and serums to amplify results and tailor treatments to individual skin needs.

SPICULES (Hydrolyzed Sponge, 7%)	SUCCINIC ACID (1%)	PHA / AHA ACIDS	PREBIOTIC COMPLEX	KOMBUCHA EXTRACT	SOOTHING ACTIVES (Chamomile Hydrosol, Betaine, Squalane)
Create millions of micro-channels, intensify microcirculation, and significantly enhance delivery of actives for up to 72 hours.	Provides cellular energy, supports natural exfoliation, and helps reduce inflammation.	Improve texture, refine pores, even out skin tone, and add radiance with minimal irritation.	Supports the skin microbiome, strengthens its natural defense mechanisms, and helps maintain a healthy barrier	A fermented bioactive that improves luminosity, smoothness, and vitality while helping to balance the skin and protect it from oxidative stress.	Calm irritation, reduce redness, and maintain comfort throughout the procedure.

# CARELIKA SKIN CHAT SOOTHING CREAM

**CARELIKA**  
PROFESSIONAL SKIN CARE

**POWERFUL SOOTHING EFFECT** **SKIN RECOVERY** **MADE IN FRANCE**

Introducing the new CARELIKA SKIN CHAT Soothing Cream - a restorative post-procedure formula that targets neurogenic inflammation and strengthens the skin barrier. Designed for sensitive, irritated, or post-treatment skin. The cream reduces redness, burning, and discomfort while accelerating recovery.

## HOW TO USE:

Apply to clean skin after professional procedures or as part of a daily routine to restore comfort and reduce reactivity.

## RECOMMENDED FOR:

Sensitive skin,  
Irritation,  
Redness,  
Post-peel care,  
Post-microneedling,  
Laser,  
CO2 therapy,  
and other invasive or active treatments.

NEUTRAZEN™ (Palrnietyl Tripeptide-8)	SQUALANE	BETAINE	CHAMOMILE HYDROSOL	PREBIOTIC COMPLEX
Helps reduce neurogenic inflammation, minimizes sensitivity, and restores skin comfort.	Strengthens the lipid barrier and prevents moisture loss.	Provides deep hydration and reduces irritation.	Helps soothe redness and calm stressed skin.	Supports a balanced microbiome and enhances resilience.

## CARELIKA SKIN CHAT DERMA SPIQ PEEL 15ml (7% Spicula)

An innovative skin renewal system with micro-spicules and succinic acid. It stimulates microcirculation, accelerates cellular renewal, and enhances the penetration of active ingredients, improving skin texture and evening out its tone. Ideal for acne-prone skin, enlarged pores, and for improving the appearance of skin showing signs of photoaging

### APPLICATION ORDER:

First, use Derma SPIQ Peel to stimulate cellular renewal and improve skin texture, then apply Soothing Cream to calm the skin, reduce irritation, and restore its barrier function.

### DEEP RECOVERY AND PROTECTION:

These two products work in synergy to provide comprehensive care for the skin's recovery after aggressive procedures and improve its condition in the long term.

### SUITABLE FOR ALL SKIN TYPES:

Particularly effective for skin after chemical peels, microneedling, or laser procedures, as well as for sensitive and inflamed skin.
